Index of Subjects

β-Adrenoceptor sensitivity
Cardiovascular β-adrenoceptor sensitivity of undernourished subjects. **58**, 5, 1987

Amino acids
Effects of infusions of lysine, leucine and ammonium chloride into the hepatic portal vein of chickens on voluntary food intake. **58**, 325, 1987

Ammonium chloride
Effects of infusions of lysine, leucine and ammonium chloride into the hepatic portal vein of chickens on voluntary food intake. **58**, 325, 1987

Artificially reared rats
Effects of early-life undernutrition in artifically reared rats: subsequent body and organ growth. **58**, 245, 1987

Bacterial protein breakdown
Factors affecting the rate of breakdown of bacterial protein in rumen fluid. **58**, 313, 1987

Bile
A comparison of the effects of soya-bean protein and casein on bile composition, cholelithiasis and serum lipoprotein lipids in the vervet monkey (*Cercopithecus aethiops*). **58**, 257, 1987

Birth weight
Vitamin E status of the newborn in relation to gestational age, birth weight and maternal vitamin E status. **58**, 191, 1987

Cadmium
The effect of wheat bran on the absorption and accumulation of cadmium in rats. **58**, 383, 1987

Cell division
Stimulatory effect of short-chain fatty acids on epithelial cell proliferation in the rat intestine: a possible explanation for trophic effects of fermentable fibre, gut microbes and luminal trophic factors. **58**, 95, 1987

Cholecystokinin
Raw soya-bean flour increases cholecystokinin release in man. **58**, 175, 1987

Cholelithiasis
A comparison of the effects of soya-bean protein and casein on bile composition, cholelithiasis and serum lipoprotein lipids in the vervet monkey (*Cercopithecus aethiops*). **58**, 257, 1987

Ciliate-free sheep
Microbial protein and peptide metabolism in rumen fluid from faunated and ciliate-free sheep. **58**, 87, 1987

Copper
Involvement of the solid phase of rumen digesta in the interaction between copper, molybdenum and sulphur in sheep. **58**, 265, 1987

Copper deficiency
Heinz body anaemia in lambs with deficiencies of copper or selenium. **58**, 539, 1987

Cowpea (*Vigna unguiculata*)
Contribution of cowpea (*Vigna unguiculata*) in a mixed diet to the nutrient intake of rural children in Ibadan. **58**, 31, 1987

Dietary energy
Urea synthesis and leucine turnover in growing pigs: changes during 2 d following the addition of carbohydrate or fat to the diet. **58**, 301, 1987

Dietary fat
Dietary fat and *N*-nitrosation in the rat. **58**, 221, 1987

Dietary fibre
The effect of vegetables and beet fibre on the absorption of zinc in humans from composite meals. **58**, 49, 1987
Comparison of fibre digestion and digesta retention time between rabbits, guinea-pigs, rats and hamsters. **58**, 149, 1987
The effect of wheat bran on the absorption and accumulation of cadmium in rats. **58**, 383, 1987
Effect of pectin, wheat bran and cellulose on serum lipids and lipoproteins in rats fed on a low- or high-fat diet. **58**, 405, 1987

Dietary protein
The effect of dietary protein source and guar gum on gastrointestinal growth and enteroglucagon secretion in the rat. **58**, 65, 1987
The effect of dietary protein and energy restriction on heat production and growth costs in the young rat. **58**, 73, 1987
A comparison of the effects of soya-bean protein and casein on bile composition, cholelithiasis and serum lipoprotein lipids in the vervet monkey (*Cercopithecus aethiops*). **58**, 257, 1987

Dietary survey
Dietary intakes of phytate and its meal distribution pattern amongst staff and students in an institution of higher education. **58**, 337, 1987

Egg-shell damage
The relation between sodium chloride concentration in drinking water and egg-shell damage. **58**, 503, 1987

Energy expenditure
Intra-individual variability and measurement noise in estimates of energy expenditure by whole body indirect calorimetry. **58**, 347, 1987
Energy intake, expenditure and pattern of daily activity of Nigerian male students. **58**, 357, 1987

Energy intake
Urea synthesis and leucine turnover in growing pigs: changes during 2 d following the addition of carbohydrate or fat to the diet. **58**, 301, 1987
The diets of pregnant and post-pregnant women in different social groups in London and Edinburgh: energy, protein, fat and fibre. **58**, 369, 1987

Energy metabolism
Reduction of energy requirements of steers fed on low-quality-roughage diets using trenbolone acetate. **58**, 477, 1987

Energy values
Evaluation of the net energy value of glucose (cerelose) and maize starch in diets for rainbow trout (*Salmo gairdneri*). **58**, 453, 1987
Enteroglucagon
The effect of dietary protein source and guar gum on gastrointestinal growth and enteroglucagon secretion in the rat. **58**, 65, 1987
Faecal inoculum
Effect of human faecal inoculum on in vitro fermentation variables. **58**, 233, 1987
Fasting
Effects of fasting in Ramadan on Tropical Asiatic Moslems. **58**, 41, 1987
The effect of fasting on enzyme levels in the enlarged and involuting rat pancreas. **58**, 427, 1987
Fatty acids
Stimulatory effect of short-chain fatty acids on epithelial cell proliferation in the rat intestine: a possible explanation for trophic effects of fermentable fibre, gut microbes and luminal trophic factors. **58**, 95, 1987
Nutritional encephalomalacia in the chick: an exposure of the vulnerable period of cerebellar development and the possible need for both ω6- and ω3-fatty acids. **58**, 511, 1987
Fermentation
Stimulatory effect of short-chain fatty acids on epithelial cell proliferation in the rat intestine: a possible explanation for trophic effects of fermentable fibre, gut microbes and luminal trophic factors. **58**, 95, 1987
Effect of human faecal inoculum on in vitro fermentation variables. **58**, 233, 1987
Fetal skin
Gestational protein–energy malnutrition affects the composition of developing skins of rat fetuses and their dams. **58**, 215, 1987
Fetal vitamin A
Liver stores of vitamin A in human fetuses in relation to gestational age, fetal size and maternal nutritional status. **58**, 181, 1987
Fibre intake
The diets of pregnant and post-pregnant women in different social groups in London and Edinburgh: energy, protein, fat and fibre. **58**, 369, 1987
Folic acid
Tissue folates in fruit bats (*Rousettus aegyptiacus*) with nitrous oxide-induced vitamin B_{12} deficiency and neurological impairment. **58**, 485, 1987
Food allergy
A comparison of the antigenicity of soya-bean-based infant formulas. **58**, 393, 1987
Food intake
Effects of infusions of lysine, leucine and ammonium chloride into the hepatic portal vein of chickens on voluntary food intake. **58**, 325, 1987
Gallstones
A comparison of the effects of soya-bean protein and casein on bile composition, cholelithiasis and serum lipoprotein lipids in the vervet monkey (*Cercopithecus aethiops*). **58**, 257, 1987
Gastrointestinal tract
The effect of dietary protein source and guar gum on gastrointestinal growth and enteroglucagon secretion in the rat. **58**, 65, 1987
Protein synthesis and growth in the gastrointestinal tract of the young preruminant lamb. **58**, 159, 1987
Glutathione
Relative contribution of cysteine and methionine to glutathione content and thyroid hormone levels in the rat. **58**, 105, 1987
Glycine insufficiency
Urinary excretion of 5-oxoproline (pyroglutamic aciduria) as an index of glycine insufficiency in normal man. **58**, 207, 1987
Growth
The effect of dietary protein and energy restriction on heat production and growth costs in the young rat. **58**, 73, 1987
Protein synthesis and growth in the gastrointestinal tract of the young preruminant lamb. **58**, 159, 1987
Effects of early-life undernutrition in artifically reared rats: subsequent body and organ growth. **58**, 245, 1987
Guar gum
The effect of dietary protein source and guar gum on gastrointestinal growth and enteroglucagon secretion in the rat. **58**, 65, 1987
Heat production
Effects of the amount and quality of dietary protein on nitrogen metabolism and heat production in growing pigs. **58**, 277, 1987
Heinz body anaemia
Heinz body anaemia in lambs with deficiencies of copper or selenium. **58**, 539, 1987
Hippuric acid
Urinary excretion of 5-oxoproline (pyroglutamic aciduria) as an index of glycine insufficiency in normal man. **58**, 207, 1987
Histidine requirement
Histidine requirement of kittens for growth, haematopoiesis and prevention of cataracts. **58**, 521, 1987
Infant formulas
A comparison of the antigenicity of soya-bean-based infant formulas. **58**, 393, 1987
Insulin
Protein–energy malnutrition in pregnant rats improves the adaptation of the endocrine pancreas in malnourished offspring and induces insulin resistance after rehabilitation. **58**, 415, 1987
Effect of insulin on hind-limb and whole-body leucine and protein metabolism in fed and fasted lambs. **58**, 437, 1987
Insulin secretion
Effects on plasma insulin of intermittent infusions of propionic acid, glucose or casein into the alimentary tract of non-lactating cows maintained on a liquid diet. **58**, 139, 1987
Intestine
Stimulatory effect of short-chain fatty acids on epithelial cell proliferation in the rat intestine: a possible explanation for trophic effects of fermentable fibre, gut microbes and luminal trophic factors. **58**, 95, 1987

Kitten
Histidine requirement of kittens for growth, haematopoiesis and prevention of cataracts. **58**, 521, 1987

Lactation
Adaptations in protein metabolism during lactation in the rat. **58**, 533, 1987

Lactitol
Hydrolysis of lactitol, maltitol and Palatinit® by human intestinal biopsies. **58**, 199, 1987

Leucine metabolism
Effect of insulin on hind-limb and whole-body leucine and protein metabolism in fed and fasted lambs. **58**, 437, 1987

Lipoprotein lipase
Diet composition and lipoprotein lipase (*EC* 3.1.1.34) activity in human obesity. **58**, 13, 1987

Lipoproteins
Effect of pectin, wheat bran and cellulose on serum lipids and lipoproteins in rats fed on a low- or high-fat diet. **58**, 405, 1987

Malnutrition
Gestational protein–energy malnutrition affects the composition of developing skins of rat fetuses and their dams. **58**, 215, 1987

Maltitol
Hydrolysis of lactitol, maltitol and Palatinit® by human intestinal biopsies. **58**, 199, 1987

Methane
Effect of sugar fatty acid esters on rumen fermentation in vitro. **58**, 493, 1987

Molybdenum
Identification of thiomolybdates in digesta and plasma from sheep after administration of ^{99}Mo-labelled compounds into the rumen. **58**, 127, 1987
Involvement of the solid phase of rumen digesta in the interaction between copper, molybdenum and sulphur in sheep. **58**, 265, 1987

Nigerian children
Contribution of cowpea (*Vigna unguiculata*) in a mixed diet to the nutrient intake of rural children in Ibadan. **58**, 31, 1987

Nitrate
Dietary fat and *N*-nitrosation in the rat. **58**, 221, 1987

Nitrogen metabolism
Effects of the amount and quality of dietary protein on nitrogen metabolism and heat production in growing pigs. **58**, 277, 1987
Effects of the amount and quality of dietary protein on nitrogen metabolism and protein turnover of pigs. **58**, 287, 1987

***N*-Nitrosation**
Dietary fat and *N*-nitrosation in the rat. **58**, 221, 1987

Nitrous oxide
Tissue folates in fruit bats (*Rousettus aegyptiacus*) with nitrous oxide-induced vitamin B_{12} deficiency and neurological impairment. **58**, 485, 1987

Nutrient intake
Contribution of cowpea (*Vigna unguiculata*) in a mixed diet to the nutrient intake of rural children in Ibadan. **58**, 31, 1987

Nutritional encephalomalacia
Nutritional encephalomalacia in the chick: an exposure of the vulnerable period of cerebellar development and the possible need for both ω6- and ω3-fatty acids. **58**, 511, 1987

Obesity
Diet composition and lipoprotein lipase (*EC* 3.1.1.34) activity in human obesity. **58**, 13, 1987

5-Oxoprolinuria
Urinary excretion of 5-oxoproline (pyroglutamic aciduria) as an index of glycine insufficiency in normal man. **58**, 207, 1987

Palatinit®
Hydrolysis of lactitol, maltitol and Palatinit® by human intestinal biopsies. **58**, 199, 1987

Pancreatic enzymes
The effect of fasting on enzyme levels in the enlarged and involuting rat pancreas. **58**, 427, 1987

Phytate
Dietary intakes of phytate and its meal distribution pattern amongst staff and students in an institution of higher education. **58**, 337, 1987

Polyunsaturated fatty acids
Nutritional encephalomalacia in the chick: an exposure of the vulnerable period of cerebellar development and the possible need for both ω6- and ω3-fatty acids. **58**, 511, 1987

Pregnancy
The diets of pregnant and post-pregnant women in different social groups in London and Edinburgh: energy, protein, fat and fibre. **58**, 369, 1987
Protein–energy malnutrition in pregnant rats improves the adaptation of the endocrine pancreas in malnourished offspring and induces insulin resistance after rehabilitation. **58**, 415, 1987

Protein degradation rate
Determination of protein degradation rates using a rumen in vitro system containing inhibitors of microbial nitrogen metabolism. **58**, 463, 1987

Protein–energy malnutrition
Protein–energy malnutrition in pregnant rats improves the adaptation of the endocrine pancreas in malnourished offspring and induces insulin resistance after rehabilitation. **58**, 415, 1987

Protein metabolism
Microbial protein and peptide metabolism in rumen fluid from faunated and ciliate-free sheep. **58**, 87, 1987
Urea synthesis and leucine turnover in growing pigs: changes during 2 d following the addition of carbohydrate or fat to the diet. **58**, 301, 1987
Effect of insulin on hind-limb and whole-body leucine and protein metabolism in fed and fasted lambs. **58**, 437, 1987
Adaptations in protein metabolism during lactation in the rat. **58**, 533, 1987

Protein quality
Effects of the amount and quality of dietary protein on nitrogen metabolism and heat production in growing pigs. **58**, 277, 1987
Effects of the amount and quality of dietary protein on nitrogen metabolism and protein turnover of pigs. **58**, 287, 1987

Protein synthesis
Protein synthesis and growth in the gastrointestinal tract of the young preruminant lamb. **58**, 159, 1987
Protein turnover
Effects of the amount and quality of dietary protein on nitrogen metabolism and protein turnover of pigs. **58**, 287, 1987
Punjabi immigrants
The vitamin D status of East Indian Punjabi immigrants to Canada. **58**, 23, 1987
Rainbow trout (*Salmo gairdneri*)
Evaluation of the net energy value of glucose (cerelose) and maize starch in diets for rainbow trout (*Salmo gairdneri*). **58**, 453, 1987
Ramadan
Effects of fasting in Ramadan on Tropical Asiatic Moslems. **58**, 41, 1987
Rumen fermentation
Effect of sugar fatty acid esters on rumen fermentation in vitro. **58**, 493, 1987
Rumen-fluid bacteria
Factors affecting the rate of breakdown of bacterial protein in rumen fluid. **58**, 313, 1987
Rumen metabolism
Microbial protein and peptide metabolism in rumen fluid from faunated and ciliate-free sheep. **58**, 87, 1987
Involvement of the solid phase of rumen digesta in the interaction between copper, molybdenum and sulphur in sheep. **58**, 265, 1987
Rumen protein degradation
Determination of protein degradation rates using a rumen in vitro system containing inhibitors of microbial nitrogen metabolism. **58**, 463, 1987
Selenium deficiency
Heinz body anaemia in lambs with deficiencies of copper or selenium. **58**, 539, 1987
Shell quality
The relation between sodium chloride concentration in drinking water and egg-shell damage. **58**, 503, 1987
Skin
Gestational protein–energy malnutrition affects the composition of developing skins of rat fetuses and their dams. **58**, 215, 1987
Sodium chloride
The relation between sodium chloride concentration in drinking water and egg-shell damage. **58**, 503, 1987
Soya-bean antigenicity
A comparison of the antigenicity of soya-bean-based infant formulas. **58**, 393, 1987
Soya-bean flour
The effect of fasting on enzyme levels in the enlarged and involuting rat pancreas. **58**, 427, 1987
Soya beans
Raw soya-bean flour increases cholecystokinin release in man. **58**, 175, 1987
Sugar esters
Effect of sugar fatty acid esters on rumen fermentation in vitro. **58**, 493, 1987
Sulphur
Involvement of the solid phase of rumen digesta in the interaction between copper, molybdenum and sulphur in sheep. **58**, 265, 1987
Sulphur-amino acids
Relative contribution of cysteine and methionine to glutathione content and thyroid hormone levels in the rat. **58**, 105, 1987
Thermogenesis
The effect of dietary protein and energy restriction on heat production and growth costs in the young rat. **58**, 73, 1987
Thiomolybdates
Identification of thiomolybdates in digesta and plasma from sheep after administration of ^{99}Mo-labelled compounds into the rumen. **58**, 127, 1987
Thyroid hormones
Relative contribution of cysteine and methionine to glutathione content and thyroid hormone levels in the rat. **58**, 105, 1987
Trenbolone acetate
Reduction of energy requirements of steers fed on low-quality-roughage diets using trenbolone acetate. **58**, 477, 1987
Trypsin inhibitors
Raw soya-bean flour increases cholecystokinin release in man. **58**, 175, 1987
Undernutrition
Cardiovascular β-adrenoceptor sensitivity of undernourished subjects. **58**, 5, 1987
Effects of early-life undernutrition in artifically reared rats: subsequent body and organ growth. **58**, 245, 1987
Vegetable fibre
The effect of vegetables and beet fibre on the absorption of zinc in humans from composite meals. **58**, 49, 1987
Vitamin A
Liver stores of vitamin A in human fetuses in relation to gestational age, fetal size and maternal nutritional status. **58**, 181, 1987
Vitamin B_{12} deficiency
Tissue folates in fruit bats (*Rousettus aegyptiacus*) with nitrous oxide-induced vitamin B_{12} deficiency and neurological impairment. **58**, 485, 1987
Vitamin D
The vitamin D status of East Indian Punjabi immigrants to Canada. **58**, 23, 1987
Vitamin E
Vitamin E status of the newborn in relation to gestational age, birth weight and maternal vitamin E status. **58**, 191, 1987
Vitamin E kinetics
Vitamin E kinetics in sheep. **58**, 113, 1987
Whole body indirect calorimetry
Intra-individual variability and measurement noise in estimates of energy expenditure by whole body indirect calorimetry. **58**, 347, 1987
Zinc
The importance of the body's need for zinc in determining Zn availability in food: a principle demonstrated in the rat. **58**, 59, 1987
Zinc absorption
The effect of vegetables and beet fibre on the absorption of zinc in humans from composite meals. **58**, 49, 1987
